

TOWN OF FIFIELD

Transfer Site Ad Hoc Advisory Committee

Minutes of November 20, 2019

The meeting was called to order at 4:04 pm at the Pike Lake Fire Hall. Present: J. Nelson, T. Lanham, T. Birchell.

Review of Current Transfer Site and Recycling Ordinances:

Section I. PURPOSE – will remain as is.

Section II. is now REPEAL OF ORDINANCE NO 42 & 96

Section III. will now be APPLICABILITY & ENFORCEMENT (formally Section VI).

Section IV. will now be DEFINITIONS (formally Section III), adding ID Card and Re-doing Waste Oil According to Rock Oil.

Section V. will now be PROHIBITIVE ACTIVITIES & NON-COLLECTIBLE MATERIALS (formally Section IV) re-doing (d) to allow for oil & scrap steel for they do not cost the town money.

Section VI. will now be ITEMS PROHIBITED FOR DISPOSAL AT THE TRANSFER SITE (formally Section V) to be re-done to meet with what the sites are taking now with some applicable fees.

Section VII. PENALTY will remain the same

Section VIII. SEVERABILITY will remain the same

Section IX. EFFECTIVE DATE will be re-written to the adopted Date of April 15th, 2020.

Review of Current Fees: Fee discussion suggested we include mattresses and dressers as furniture and charge \$15.00, the same as couch/recliner. Raising cost of freon-related items to \$20.00. Making sure we are covering cost for tire collection. Raise cost of bagged household waste & recyclables to \$5.00 to discourage non-residential use of transfer sites.

Identification Card Review: J. Nelson presented the proposed identification card provided by J. Jontry. Cards will be ordered and mailed out with a letter to residents along with the property tax bills.

Discuss Residential vs. Business: The committee reviewed the ordinances and saw no reason for changes. Any rental less than 30 days is considered short-term rental and therefore falls under commercial/business.

Trash and Recyclables Collector Review: Discussion was brought up by Birchell inquiring why Pike Lake can't have containers that collect all items that Fifield takes. Cost and collection was going to be researched by Nelson. Also looking into adding more recyclable containers during summer months to alleviate full containers before pick-up.

Public Comment: None.

Adjourn: A MOTION (Nelson, Birchell) was made at 5:00 p.m. to adjourn. Motion carried, voice vote (3, 0).

Respectfully submitted,

Jim Nelson, Secretary
